

The Backpack Project

For a 7th year Shelburne Rotary & the Food Bank are going to make sure that every child has a new backpack, lunch kit and water bottle for school this fall.

Although the food bank does their best to make sure that there is good healthy food for school lunches we wanted to make sure that kids have a pack to carry it in.

If you are able to help please see below for some ideas of how we can make our program a success once again this year.
